

RAICO Bautechnik GmbH

RAICO Bautechnik GmbH is a leading German manufacturer of customized system solutions for curtain walls, glass roofs, windows and doors. **RAICO** is a technology leader in the industry with extensive experience in metal engineering.

The comprehensive portfolio of **RAICO** products includes the fully engineered THERM+ curtain wall system in **aluminium, steel or timber** which provides thermal insulation for a high level of energy efficiency and positive energy balance. **RAICO** system solutions aim to integrate freedom in design, technical and operational reliability as well as efficient fabrication and assembly, thus meeting expectations and requirements of architects, façade engineers and installers.

RAICO has been working on its global presence since 1999. Today the company has a well-established network of subsidiaries and distribution partners around the world.

Further information about RAICO products and services is available at www.raico.de.

Mr. Volker Massmann, International Sales Manager would like to liaise closely with **architects & engineering consultants** specializing in curtain walls, glass roofs as well as aluminium doors and windows. **RAICO's** focus is furthermore on finding **sales & distribution partners** for their products. At the same time potential partners may be associated with the **metal & steel industry** such as manufacturers of façade elements.

He will be accompanied by his colleague **Dr. Andreas Luzzi**, who represents RAICO in Australia.
